

Reins From Above Policies and Barn Rules

Reins From Above Therapeutic Riding Center will implement the following policies for the 2011 riding season. *Please keep this information for future reference.*

Rider Participation:

Recognizing that equine related activities hold inherent risks, all new and returning participants will be evaluated by our NARHA (North American Riding for the Handicapped Association) Certified Instructors to ensure a safe and beneficial experience. Returning participants will be re-evaluated each year or as necessary for changes in medical, physical, cognitive, and behavioral status. **All riders**, disabled AND able-bodied, must have a completed, signed, and dated registration packet, including basic information, a Liability release, Media Release, Form for Authorization for Emergency Medical Treatment, and physician-signed Medical Release form on file in the Reins From Above office prior to participating in any aspect of the program. Disabled riders must also have a complete, signed and dated Consent for Release of Information Form on file. All forms must be updated annually. Riders at Reins From Above shall have no history of inappropriate behavior with fire or any tendencies or history of abuse or violence directed toward other people or animals. Reins From Above reserves the right to deny services to any individual based upon concerns for the applicant's safety and/or the safety of the horses, volunteers, staff, property owners, or for other reasons in accordance with NARHA operating center guidelines.

It is the responsibility of the participant or the participant's parent or guardians to inform Reins From Above of any changes in the participant's medical, physical, mental, or behavioral status. A Participant is defined as a Reins From Above client, volunteer, or staff member.

For disabled riders:

Please note that horseback riding is contraindicated for some conditions/individuals. Reins From Above follows the NARHA guidelines for precautions/contraindications for physical restrictions of riding. See the NARHA Guide (in the Reins From Above office) or the NARHA website www.narha.org for detailed information (No backriding is performed at Reins From Above).

Weight considerations for all riders: Maximum weights are listed below, but decisions regarding participation will be based on the availability of a suitable horse relative to the height, weight, cognition, and balance of the participant. The results of a risk/benefit analysis will also be considered. Final determination for participation will be made by the instructors at Reins From Above TRC.

The maximum upper weight limits for disabled riders are:
